

Andreeva Bay

Andreeva Bay is a [bay](#) in [Murmansk Oblast](#), Russia. The bay is a [radioactive waste repository](#) (or a place to store things).

As of 2022, the cleaning up of [nuclear waste](#) is not complete; [Russian](#) authorities said in May 2022 that half of the nuclear waste has been cleaned up in the last 5 years.^[1]

History

[[change](#) | [change source](#)]

The bay became a radioactive waste [repository](#) in 1961. The bay is 55 km (34 mi) northwest of [Murmansk](#) (city) and 60 km (37 mi) from the Norwegian border, on the western shore of the [Zapadnaya Litsa](#) ([Kola Peninsula](#)).

In February 1982, the [Andreev Bay nuclear accident](#) happened.

In 2022, NRK.no published a photo of a [crane](#); The website says that the crane has removed half of the nuclear waste from the bay.
